

Construction of upgrades and improvements to Orchard Avenue, Meadow Drive, Clover Lane, and South Main Street in Hightstown Borough for an awarded construction value of \$1,590,913.13 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide sewer quality benefits by reducing maintenance costs and ensure uninterrupted residential sewer service for residents and businesses in the Borough of Hightstown.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
